Horari

- *18h a 18h45* Introducció a Drupal
- *18h45 a 19h* Pausa
- *19h a 20h30* Funcionalitats i mòduls de Drupal

Citilab

A vista d'ocell

- Què és Drupal?
- D'on prové?
- Què puc fer amb ell?
- Qui l'utilitza?
- Algunes de les millors funcionalitats
- Com està feta una web amb Drupal?
- Què necessito per a poder fer una web amb Drupal?
- On es troba Drupal ara mateix?
- Pros i contres de Drupal
- Drupal 8?

Què es Drupal?

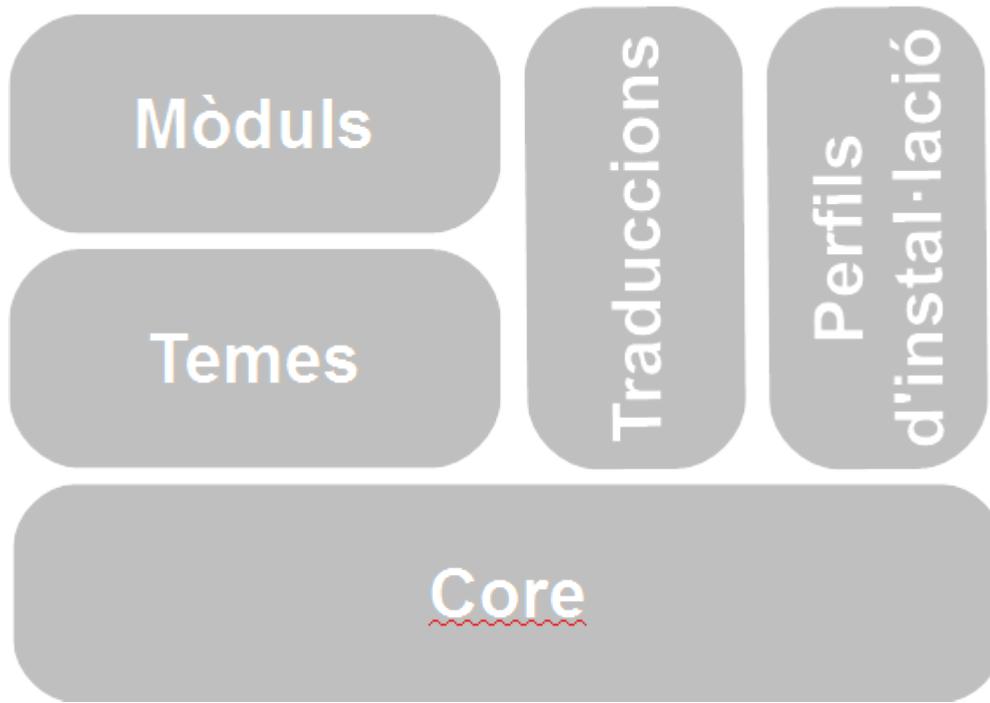

Drupal es un **sistema de gestió de continguts** modular, gratuït i de codi obert.

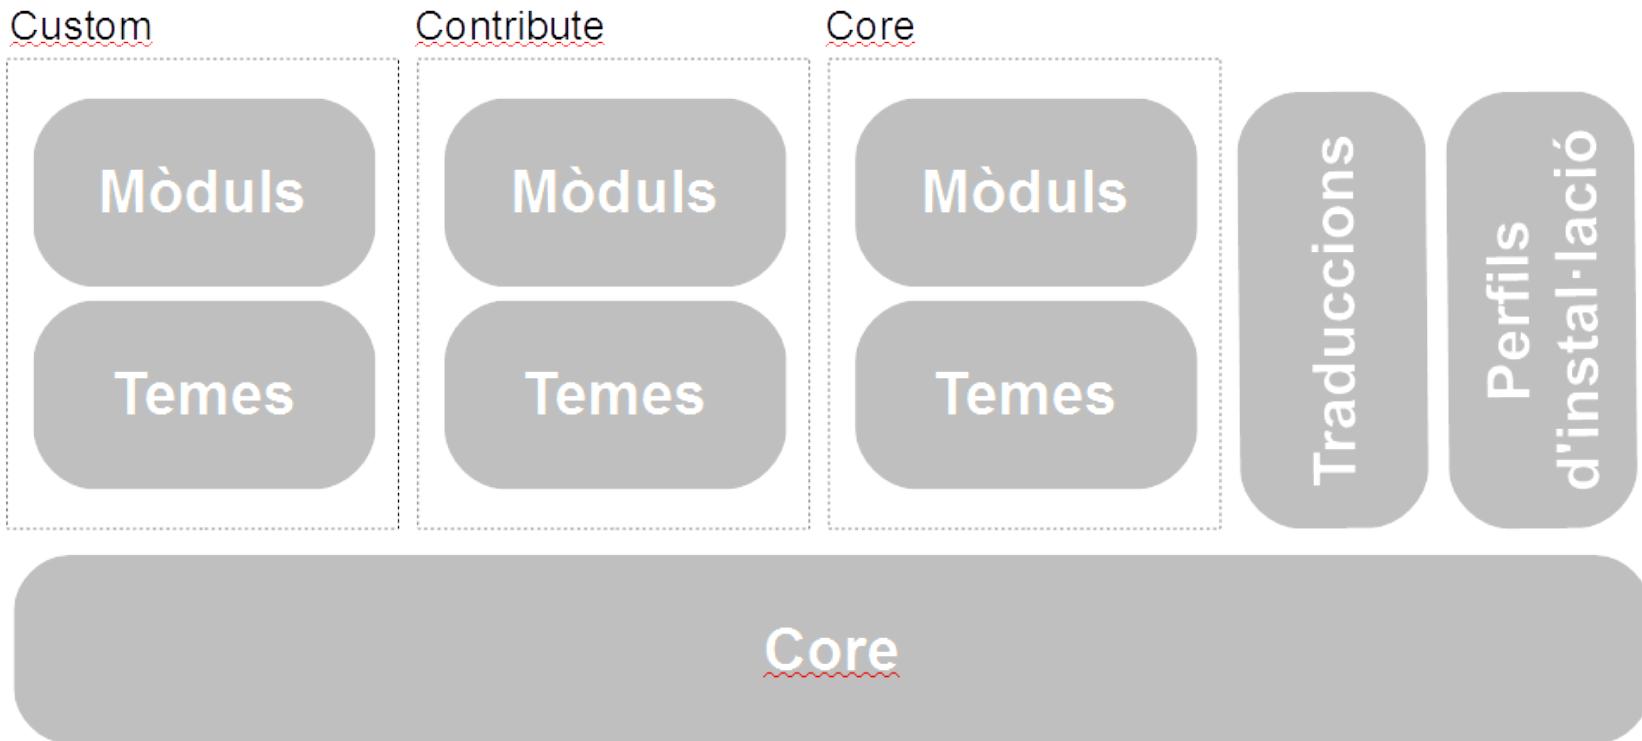

- Permet construir tot tipus de pàgines web, adaptant-se a les necessitats particulars en cada cas.

Drupal es també un **CMF** (Content Management Framework)

- Es un sistema que permet crear **Gestors de Continguts**.

Llicència: GPL

- **GPL** és un tipus de llicència per a programari que permet la **còpia, distribució i modificació** del codi, sempre que qualsevol modificació es continuï distribuint amb la mateixa llicència GPL.
- Això vol dir que:
 - Drupal no té cost de llicències
 - El contingut que creem dintre de Drupal no ha de ser **GPL**

Una mica d'història..

- Va començar al 1999 per **Dries Buytaert** a Bèlgica
- Comunicació a la seva residència d'estudiants
- Open Source des del 2001

Perquè es diu Drupal?

- Nom original: Dorp -poble en neerlandès-
- Al realitzar el registre de domini: Drop.org
- Drop = Gota en anglès = Druppel en neerlandès
- Druppel => Drupal en anglès

Què podem fer amb Drupal?

9/11 Memorial Preview Site Reopens after Sandy

12:18 pm / By in General

The 9/11 Memorial Preview Site, 20 Vesey St.

The **9/11 Memorial Preview Site** at 20 Vesey St. has reopened following closures because of the severe weather after Sandy. While recovery efforts continue in lower Manhattan, the Preview Site will operate under modified daily hours of 10 a.m. to 4 p.m.

Continue checking 911memorial.org for updates on the 9/11 Memorial.

Cómo hacer las reuniones más ágiles

Nos guste o no, las reuniones ocupan una parte muy importante de nuestra jornada laboral y, a menudo, el tiempo que invertimos en ellas está mal aprovechado

Para conseguir que las **reuniones sean ágiles** y no se conviertan en encuentros eternos que no llevan a ninguna conclusión existen diferentes factores a trabajar:

¿La reunión es realmente necesaria?

Grupos de campos				
Fields can be dragged into groups with unlimited nesting. Each fieldgroup format comes with a configuration form, specific for that format type. Note that some formats come in pair. These types have a html wrapper to nest its fieldgroup children. E.g. Place accordion items into the accordion, vertical tabs in vertical tab group and horizontal tabs in the horizontal tab group. There is one exception to this rule, you can use a vertical tab without a wrapper when the additional settings tabs are available. E.g. node forms.

Formularis

The screenshot shows a Drupal-based website with a header navigation bar including 'Inicio', 'Proyectos', 'Drupal', 'Proceso', 'Nosotros', 'Blog', and 'Contacto'. Below the header is a menu with 'Ver', 'Editar', 'Formulario web', 'Resultados', 'Seguimiento', 'Clonar', and 'Desarrollo'. The main content area features a logo for 'atenea tech' and language links 'Català', 'English', and 'Español'. A section titled 'Introducción a Drupal: Formulario de Inscripción' contains instructions: 'Rellena este formulario para inscribirte en el taller.' It includes two text input fields labeled 'Nombre y apellidos:' and 'Correo electrónico:', both marked with a red asterisk indicating they are required. A 'Enviar' button is located below the fields. At the bottom of this section, it says '407 reads dar parte a Mollom'.

The screenshot shows the 'Formulario web' administration interface for the 'Introducción a Drupal: Formulario de Inscripción'. The top navigation bar includes 'ATENEA TECH > INTRODUCCIÓN A DRUPAL: FORMULARIO DE INSCRIPCIÓN > FORMULARIO WEB >', 'Hello admin', and 'Cerrar sesión'. Below the navigation is a sub-navigation bar with 'Ver', 'Editar', 'Formulario web' (which is selected and highlighted in blue), 'Resultados', 'Seguimiento', 'Clonar', and 'Desarrollo'. The main content area displays a table of form components:

Nombre	Tipo	Valor	Obligatorio	Operaciones
Nombre y apellidos	textfield	-	<input checked="" type="checkbox"/>	Editar Clonar Eliminar
Correo electrónico	email	-	<input checked="" type="checkbox"/>	Editar Clonar Eliminar
Nombre del nuevo componente	Campo de texto	-	<input type="checkbox"/>	Agregar

At the bottom of the table is an 'Enviar' button.

CAPTCHA

[CAPTCHA](#) [Image CAPTCHA](#)

The image CAPTCHA is a popular challenge where a random textual code is obfuscated in an image. The image is generated on the fly for each request, which is rather CPU intensive for the server. Be careful with the size and computation related settings.

Example

Presolved image CAPTCHA example, generated with the current settings.

What code is in the image? *

FWGYF

Enter the characters shown in the image.

Code settings

Characters to use in the code

aAbBCdEeFfGHhijKLMmNPQRrSTtWXYZ23456789

Code length

5

The code length influences the size of the image. Note that larger values make the image generation more CPU intensive.

How to use the Drupal SEO Checklist

Please read these instructions to get the most out of your Drupal Search Engine Optimization efforts.

Important warning

This checklist will not search engine optimize your site. It was written as a guide for Drupal SEO experts. If you need help with Drupal SEO best practices, the search engines' latest changes, your brand's target audience, or strategic marketing objectives, consider using a Drupal-specific Internet Marketing consultant like Volacci or ask your Drupal developer for a recommendation.

Getting started

Each time you open the SEO Checklist, it will look to see if any tasks have already been completed. For example, if you've already turned on clean URLs then that item will be checked. You still need to click "Save" to time and date stamp the automatically-checked items.

The best way to proceed is to start at the top and work your way through each tab until you're done, clicking save after each completed item.

How it's organized

The sections are listed from most important to least important. The tasks in each section are also ordered from most to least important. A notable exception to this is the Tools section.

Rols

People

[List](#)[Permissions](#)[Permissions](#)[Roles](#)

Roles allow you to fine tune the security and administration of Drupal. A role defines a group of users that have certain privileges as defined on the [permissions page](#). Examples of roles include: anonymous user, authenticated user, moderator, administrator and so on. In this area you will define the names and order of the roles on your site. It is recommended to order your roles from least permissive (anonymous user) to most permissive (administrator). To delete a role choose "edit role".

By default, Drupal comes with two user roles:

- Anonymous user: this role is used for users that don't have a user account or that are not authenticated.
- Authenticated user: this role is automatically granted to all logged in users.

Rules

[View](#) [Version control](#)

Posted by [fago](#) on November 7, 2007 at 1:34pm

The rules module allows site administrators to define conditionally executed actions based on occurring events (known as reactive or ECA rules). It's a replacement with more features for the trigger module in core and the successor of the Drupal 5 [workflow-ng](#) module.

Example use cases

- Build flexible content publishing workflows changes
- Send customized mails to notify your users about important
- Create custom redirections, system messages, breadcrumbs, ...

And many more...

Modules may use the rules module's API to provide new events, conditions, actions, rule sets as well as default rules, which can be customized by users. Check out the [developer docs](#).
